## EXECUTIVE OCTOPUS REACHES ITS CLAWS INTO JANESVILLE

Circular Letter Sent by J. Crawford Harper of Madison, La Follette's Right Bower, Shows Fear and Weakness, and Receives Just Rebuke.

That the executive machine is desperate, that every means in their power will be used to obtain the reelection of Governor LaFollette, has long been known. Stories of the methods used and the slurs cast at the republicans who stand for right have come to light from time to time only to be denied by the followers of the Governor who paint in the vivid colors the practices of the Republican League.

That the case of the Governor is desperate and that his faithful henchmen realize this fact is made clear by the following letter sent to Mr. George Kastner of Janesville by J. Crawford Harper, LaFollette's former law partner and faithful and blind follower. The letter is a work of art from the LaFollette standpoint. Really it exposes their hand and shows how few cards they have left to play why they ask for aid broad cast, regardless of party affiliation.

The Gazette also publishes Mr. Kastner's answer which voices the sentiments of the republican voters of Rock county. The two letters follow:

Madison, Wis., May 29, 1902.  
My Dear Sir:—As you are doubtless aware the Republican state convention has been called to meet at Madison on July 16. This makes it possible that caucuses may be held within a few days, and, in any event, the campaign prior to the state convention must be very brief.

I assume that you are aware of the desperate contest which has been waged against the Republican administration in this state and the principles in support of which it was selected. While this contest is being directed by a few individuals solely to promote a few selfish interests, it is apparently backed by unlimited money expenditure. There is no reason to fear the result if every citizen who favors a more equal adjustment of the tax burden and the right of every voter to express his choice of candidates for nomination to public office can be made to realize the importance of the contest.

Gov. LaFollette is being opposed solely because he has proven his fidelity to the principles and policies which the republican party at the last state convention pledged the people to carry into effect. Special interests, which heretofore have profited by discrimination in the enactment and execution of laws, are opposing him for no other reason than his steadfast refusal to accede to their demands for a continuation of special favors through government. It is generally recognized that this is a death struggle in a political sense for those who have profited by minority and machine control of party and state government in Wisconsin.

It is imperatively necessary that citizens who desire to see the administration sustained, and the principles which it stands for upheld, shall be alert and active to insure the defeat of the organization outside of the party which was formed in Milwaukee last summer. For nearly a year that organization has been vigorously engaged, through every influence open to the lavish use of money, and in the reckless disregard of truth and fairness, to accomplish the retirement of Governor LaFollette and the defeat of efforts to secure a more just distribution of taxes and a remedy through direct vote of the people, for the abuses of caucuses and conventions.

Can we rely upon you to give your personal and active support to secure the re-affirmation of these principles at the coming state convention, as well as the renomination of Governor LaFollette who stands conspicuous for his valiant advocacy and defense of them?

To the end that there may be harmony of action and effort in this cause by its friends, as well as by its opponents, will you please inform me as early as possible of the situation in your locality and county, and take immediate steps to assure yourself that the supporters of the party administration and regular organization may not be defeated in your political district through inactivity, or by reason of the more thoroughly organized efforts of the opposition.

The time is short and an immediate reply will greatly oblige.

Yours very truly,  
J. C. HARPER.

J. C. Harper, Esq., Madison, Wis.  
Dear Sir:—In reply to your letter of May 29th, would say that in my ward the Republicans are almost solid for Whitehead, who is our candidate for Governor of Wisconsin. About the only votes that you could get at a caucus for LaFollette would be democratic, which is wholly against my principles. As near as I can learn, the whole of Rock county, or nearly so, is the same. The chances for LaFollette delegates here are about 1 to 16, the same as the ratio on the state-wide question.

Yours truly,  
GEO. KASTNER.

## DEMOCRATS MAY ELECT GOVERNOR IN OREGON

Rest of Republican Ticket Seems to Be Sure of Winning by Good Majorities.

Portland, Ore., June 3.—Incomplete returns from a few scattering precincts in the state indicate that the Republican ticket has been victorious except for governor. The nominal majority in the state is about 13,000, but a decrease in the registration and a light vote probably will reduce it to 10,000.

W. J. Furnish, Republican candidate for governor, is running behind his ticket. George E. Chamberlain, democratic candidate, is popular in the city of Portland, a Republican stronghold, and meager returns indicate that he will carry the county.

Thomas N. Tongue is re-elected to congress from the first district by an increased majority and J. N. Williamson, Republican from the second district, is elected by a large majority.

## RAILROADS ASK FOR DELAY

Illinois Commission Denies Requests, But May Arrange Matters.

Springfield, Ill., June 3.—Representatives of a number of Illinois railroads have asked for a postponement of the hearing set for to-day on the proposition for a revision of rates and classifications by the state railroad and warehouse commission. As these requests were received too late to give notice to interested shippers, the commission has decided to deny the requests. It is expected, however, that nothing will be done further than to fix rules to govern the hearing. An adjournment may be taken until next week to allow the men interested to prepare their cases in accordance with the rules.

## SECOND LETTER ON TAX COMMISSION

Senator Whitehead Treats Purposes of This Board in Fair Manner.

## IT IS NON-POLITICAL

History of the Commission

Given From an Economic Standpoint.

## IS VERY ABLY WORDED

State Senator John M. Whitehead gives to the readers of the Gazette the second of his letters on the subject of the tax commission. These letters are the exact history of this famous commission and follow out the course, life and doings of this board of arbitration. The letter is invaluable to the citizens of the state in showing them just what the commission was created for and what it was not meant to be—a political organization.

The letter is written not from the standpoint of a politician, but from that of an economist and shows up the sophistries and false statements of the wily politicians who seek to make political capital. It is an able letter and treats the subject with great fairness and clearly sets forth in simple, plain and explicit language what the commission really is: Janesville, Wis., June 3, 1902.

To the Gazette:—The taxation of corporations was investigated by the Tax Commission of 1897, and the results of such investigations stated in the reports as follows:

"In the case of banks, manufacturing and trading corporations, corporate property seems to be as highly taxed as that of private individuals; but we do not think this is true of any corporations taxed on the basis of earnings or on the mileage basis.

"Indeed, we believe that all those corporations thus taxed would pay materially more if, like other property, they paid in proportion to value. Hence an increase of the taxes upon this form of property cannot be regarded as any discrimination against this class of corporations, but rather as an effort to prevent discrimination in their favor, as an attempt at the equalization of taxes.

"While we have no sympathy whatever with the suggestion that corporations organized for making money, should be taxed relatively any higher than individuals, we know of no good reason for their exemption and no good reason for their taxation at a considerably lower rate than is applied to other property.

"Our work has led us to be the conclusion that all the corporations which are taxed on the basis of earnings or on a mileage basis pay relatively less taxes than other persons and less than they would pay on the basis of value.

"For the reason stated in the report we are not prepared either to recommend that the system be changed to the method of assessment by a state board or the specific rates of taxation which should be fixed if the present method should be continued.

"(a) We recommend that the whole subject of taxation of quasi public corporations be fully investigated either by a committee or by a board of state officers having full power to examine witnesses and compel the production of books and papers.

"(b) We recommend that if the present mode of taxing railroads be continued a new and closer classification of rates be fixed for the purpose of preventing the inequalities which arise under the system now in force.

"(c) That the present plan of taxing railroads on the basis of mileage be discontinued.

"(d) That express companies be taxed either on the basis of the value of their property in the state, including the franchise, to be assessed by a state board or on the basis of their gross earnings.

"(e) That legislation be adopted preventing the evasion of the law as to taxation, by sleeping car companies.

The act provided for no compensation to the commissioners. Their report was to be printed at public expense. The edition was to be not less than 1,000 nor more than 5,000 copies. The distribution was to be made, twenty copies each to the commissioners and to persons entitled to receive copies of the revised statutes. At the session of 1899, an appropriation of \$897.32 was made by the Legislature to reimburse the commissioners for their traveling expenses, postage, etc. The difficulty that the advocates of a tax commission had encountered in successive legislatures in securing the legislative approval of the proposition to establish such a commission was supplemented by the unwillingness of the Legislature, even when men were found of sufficient knowledge and public spirit to make a proper investigation of the subject of taxation to provide liberally for the distribution of the information gathered up. Nevertheless, the commission performed their work in a way to entitle them to the gratitude of their fellow citizens.

At the State Republican Convention.

## SECOND LETTER ON TAX COMMISSION

Continued From Page 1.

tion of 1899, the following was placed in the platform:

"We demand the immediate enactment of such laws as may be necessary to compel all persons and corporations, engaged in business within the state, except such fraternal and other associations as are now expressly exempted from taxation by law, to contribute their just and equal share towards the burden of taxation."

At the session of 1899, Governor Scofield called attention in his inaugural message to the class of corporations that were referred to in the platform. The portion of his message relating to taxation was referred to the Committee on Assessment and Collection of Taxes of each house, with instructions to report by bill, when deemed necessary. The Senate Committee accordingly, acting upon the suggestion of the message on following out the recommendation of the Tax Commission, prepared and introduced four bills, relating to the taxation respectively of express, sleeping car, freight and equipment companies, by a special ad valorem method. The bills were promptly enacted into laws by the Legislature.

This commission also recommended "that an inheritance tax be levied with respect to personal property on both lineal and collateral inheritances," etc. A law was passed levying a modified form of inheritance tax.

In his second inaugural message, Gov. Scofield referred to the Tax Commission of 1897 and its work. I am glad to quote the Governor's comments somewhat fully:

"Two years ago the Legislature passed a law providing for a Tax Commission to be made up of the Gov. and the Sec. of state, as ex officio members, and three members to be appointed by the Gov. The work of the Commission as laid out by the law creating it was to collect and collate material relating to assessment and levy taxes, and to make such recommendations for legislation on the subject as the conditions would seem to require. No provision was made for payment of the expenses of the Commission, but notwithstanding this the work has been very successfully carried on up to this time. The ex officio members have not been able to participate to any great extent in the work or take part in the deliberations of the Commission. Much valuable and necessary data for intelligent action on the subject has been collected and some important recommendations made, and yet the work can be regarded only as a step in the right direction and far from complete. I believe it is of the greatest importance to the people of Wisconsin that this work, so well begun, should be carried forward to completion.

"Perhaps no other branch of public business has been conducted in so loose and unsystematic a manner as has been the work of assessing and levying the taxes.

"I urgently recommend, therefore, that a law be passed providing for the continuation of the work by the appointment of a Commission of three or five members, with ample powers and facilities for carrying on of not less than \$25,000 be made for expenses for the two years. It seems their work, and that an appropriation reasonable to expect that, if the work is properly done and supplemented by wise legislation, millions of dollars worth of taxable property which now escapes, can be brought into the assessment rolls, and many thousands possibly millions, of dollars eventually saved to the tax-payers of the state.

Pursuant to the recommendation of the Commission, reinforced by the Governor's message, the law of 1899 creating the second, the present, tax commission was passed.

JOHN M. WHITEHEAD.

## URGES SENATORS TO TAKE ACTION

President Desires Legislation on Cuban Reciprocity and Isthmian Canal.

### BELIEVES RELIEF IS NEEDED

Prefers That Congress Shall Select Route for Waterway, but Asks That Definite Action Be Taken Before Session Adjourns.

Washington, June 3.—Three important conferences held here may result in bringing the Republican senators into harmony on the Cuban reciprocity and isthmian canal bills and secure action on these measures at this session. Two of the conferences were held at the White House, the President having summoned senators known to be opposed to one or both of these measures in order to urge the necessity for unanimity and prompt action. The President emphasized the value of time, and reiterated his belief that the Cubans were in need of prompt relief. He talked along these lines with Senators Kittredge, Gamble, Nelson and Foster of Washington, all opponents of Cuban reciprocity, but failed to convert them. He also urged the necessity for canal legislation at this session. It is known that the President would reluctantly accept the responsibility imposed by the Spooner amendment of selecting a route, but he would much prefer that Congress select the route itself.

On the return to the capital of these senators Mr. Ellkins of West Virginia issued an invitation to all friends of the sugar belt to meet him at luncheon. Of twenty-six Republican senators so classified, eighteen accepted the invitation. Two absentees sent regrets and announced adhesion to any plan of action those present might take. Six senators made no response to the invitation. The conference resulted in twenty Republican senators pledging themselves to oppose reciprocity with Cuba in the form of a direct reduction in tariff duties, but an agreement was made that they would support a rebate plan, the money to be paid to the Cuban government.

For the purpose of strengthening themselves the friends of reciprocity have announced a willingness to make the 20 per cent reduction apply solely on Cuban sugar and tobacco. They hope to gain the votes of some western senators this way, but a division of the forces, after the developments of the day, indicates that reciprocity has lost the vote of one senator, Mr. Burton of Kansas, and that instead of having thirty-nine senators in favor of a caucus, there are only thirty-eight, seven short of the desired majority.

### WOULD DESTROY SEALS.

Mr. Tawney Presents Report Condemning the Pelagic Hunters.

Washington, June 3.—Representative Tawney of Minnesota presented the report of the ways and means committee favoring a reopening of the Bering Sea seal negotiations with Great Britain with a view to securing the permanent preservation of the seal herd, or else the destruction of the herd with the exception of a few for the preservation of the species. The report says: "The killing of the surplus female seals will be an act of mercy, since it puts an end at once to the extreme brutality of the pelagic hunter's work. If not done by us, then this infamous and cruel butchery of the female seal and the starvation of the young by the pelagic hunter will continue, and will end only with the extermination of this seal life in the very near future."

The report says that the young male seals will be destroyed by 1900, and the birth rate will cease on the breeding grounds almost immediately thereafter. The accompanying papers represent that the seal herd has been reduced from 4,700,000 in 1874 to 224,000 at present, and that the United States has spent \$1,441,331 since 1890 in protecting the herd over and above all receipts for rent, etc.

### THANKS FOR MR. HAY.

Eloquent Testimonial to the Secretary by a Confederate Veteran.

Washington, June 3.—In the house by a vote of 129 to 46 the rules were suspended and a joint resolution was adopted extending the thanks of congress to Secretary of State Hay for his address on the occasion of the McKinley memorial exercises last February. Unanimous consent for the consideration of this resolution was objected to by Mr. De Armond (Mo.) some time ago. Mr. Clark (Mo.) made a twenty-minute speech in opposition to its adoption on the ground that Mr. Hay had abused the occasion by injecting a "Republican stump speech" into the address. Gen. Hooker (Miss.), a one-armed confederate veteran, delivered an eloquent defense of Mr. Hay's address, denying that it contained anything that was objectionable from a political standpoint. Mr. Grosvenor (Ohio), who was in charge of the resolution, argued that Mr. Hay in eulogizing the martyred president could not divorce the man from his achievements and his record as a manly partisan. Only forty-six Democrats voted with Mr. Clark against the resolution.

### Medals for Soldiers.

Washington, June 3.—Secretary Root has sent to the house committee on military affairs a draft of a bill

providing an appropriation of \$100,000 to defray the cost of medals for officers, soldiers and others who served in the Spanish-American war, the China relief expedition, the Philippine Insurrection and other campaigns that may be undertaken in the future. This will put the soldiers on an equality with the sailors who are to be provided with medals under existing laws.

### Illinois Man for Judge.

Washington, June 3.—The appointment of John G. Thompson of Illinois upon the bench of the Supreme Court of the District of Columbia has been practically decided upon by the President and the nomination is expected in a few days. Judge Thompson is the candidate of Representative Cannon of Illinois and is backed by the Illinois congressional delegation.

### Decides Against Edison.

Washington, June 3.—The United States Supreme Court denied the petition of Thomas Edison for a writ of certiorari in his case against the Mutoscope Company, involving the moving picture patents. The effect is to affirm the decision of the lower court adverse to Mr. Edison.

### Bankruptcy Law is Valid.

Washington, June 3.—In passing on the case of the Hanover National Bank of New York vs. Max Moyses the United States supreme court in an opinion delivered by Chief Justice Fuller decided the national bankruptcy law to be constitutional.

## STUDENTS EDIT HANDSOME ANNUAL

The High School Phoenix, Published by the Junior Class, is an Artistic Book.

The high school Phoenix, which is published this year in the form of an annual, is a handsome book and reflects great credit on the Junior class which had charge of its publication. The book is handsomely bound in white, the front cover bearing the pennant in blue, the High school color, with the lettering, "Janesville High School, 1902" in gold. The cover design is the same as the one used on the 1900 Phoenix.

The dedication appears opposite a very fine half-tone cut of Supt. H. C. Buell and reads as follows: "To our respected friend and teacher, Superintendent H. C. Buell, this book is gratefully and respectfully dedicated."

The frontispiece in the book is a half-tone of the Janesville High school and this is followed with half tones of the members of the board of education, members of the High school faculty. Interior views of the different rooms, members of the Senior class, the Rusk lyceum, the Laurean society, the debating team, officers of the Athletic association, the Senior football team which won the championship cup, the boys' basketball team, the girls' basketball team and the base ball team.

The book is also handsomely illustrated with original drawings, the majority of them being by Harold Hall, a member of the Junior class. Mr. Hall has unusual artistic ability and his native talent has been encouraged and wisely directed by Prof. W. F. Gaskins, the art instructor. Many of the designs drawn by Mr. Hall are excellent both in conception and execution. His four different types of girls representing the four classes, and two or three heads by the young artist are especially good.

Miss Nell Millmore also has some clever drawings in the book, the latter design with which the chat department is introduced, being one of the best illustrations in the annual. Some very creditable work in illustrating has also been done by Miss Julia S. Lovejoy, who introduces the Athletic department with a charmingly artistic maiden of the out-door type. Miss Lovejoy's design for the cover of the book was accepted but on account of the heavy expense of getting out a new cover, it was reluctantly decided to use the old design.

Besides the usual jokes, original poems and stories which are ever the chief feature of a High school paper or annual to the student body, there is so much valuable information concerning the High school and the work being done in its class rooms, its literary societies and its athletic association. The list of the alumni with their present whereabouts, is complete and very accurate and makes the volume a valuable one to those who have been graduated from the school as well as to the students now enrolled in its four classes. The back pages of the book, which are filled with advertisements, are proof of the fact that the business men of the city take an active interest in the High school and its students.

Those who had charge of the Phoenix were as follows: Stow Lovejoy, editor-in-chief; Ida Stoddard, assistant editor; Henry Skaylem, business manager; Verne Murdock, advertising manager; Thomas McClernan, exchange editor; Harold Hall, chat editor; Charles Galbraith, Athletic Editor; Charlotte Monat, Laurean Editor; Harold Smith, Lyceum Editor.

Class Reporters.—Gertrude Van Beynum, Frank Holt, Seniors; Josephine Fenton, Pliny Wilbur, Juniors; Cora Soverhill, Clarence Van Beynum, Sophomores; Mabel Charlton, Harvey Bailey, Freshmen.

Chat Reporters.—Charlotte Monat, Anna DeForest, George J. Scarcliff, Lucy Fox, Roberta Keller, Belle MacLean, Eretta Kimball, Isabelle Menzies, Elisabeth McKee, Kramer Doty, Chester Morse.

## BROUGHT TO LIGHT

Janesville People Receiving The Full Benefit.

There have been many cases like the following in Janesville. Everyone relates the experience of people we know. These plain, straight, forward statements will do much toward relieving the suffering of thousands. Such testimony will be read with interest by many people.

Mr. E. T. Fish, of 855 Racine St., proprietor of the Fish Dry Line, says: "When I was twenty years of age I fell I injured my back, and ever since that I was troubled more or less with a dull aching pain across the loins. It never laid me up but it was often painful and annoying. Of late years I have gone to a physician every six months and had myself thoroughly examined, under the impression that there might be something wrong with my kidneys. The diagnosis always resulting in the physician claiming these organs were sound, but as the pains existed when I happened to notice in our Janesville papers that Doan's Kidney Pills were guaranteed to cure just such troubles I procured a box at the People's Drug Co. store, and took them. Doan's Kidney Pills are a good preparation. My back has not ached since I used them. I have heard others speak very complimentary of them and if I did not know their merit and required such a medicine I would consider it a favor if some one suggested their use to me. For this reason I endorse them."

Remember the name, Doan's, and take no other.

# Y. M. C. A. HONORS DR. E. E. LOOMIS

Board of Directors Gives a Banquet  
for the Retiring Association  
President.

There was an unusually pleasant social function at the Y. M. C. A. building last evening, the occasion being a banquet given by the board of directors of the association in honor of the retiring president, Dr. E. E. Loomis. For the past eight years Dr. Loomis has served the association as its president and the banquet of last evening was a slight expression of the deep appreciation and gratitude felt by the officers and directors for his wise and efficient administration during the most critical years of the association's life.

Besides the members of the board of directors who tendered the banquet and the gentleman in whose honor it was given, the invited guests included Senator J. M. Whitehead, state president of the Wisconsin Y. M. C. A., the chairman of the various association committees, and the pastors of several of the local churches. There were but few regrets, twenty-one guests out of a possible twenty-seven being present to enjoy the festivities.

The banquet was served at seven o'clock in the upstairs parlor of the association building, the long table being prettily decorated with cut flowers. The menu was quite elaborate and very appetizing.

The banquet was served by Mrs. George Williams, assisted by Walter and James Gregory, two senior members of the association, who waited on the tables.

**Heard Good Music**  
During the supper, the guests enjoyed some excellent music, the gramophone and after dessert, had been finished a couple of hours were spent in reminiscences and suggestions for future work.

**The Postprandial Program**  
F. F. Lewis, president of the association, presided during the postprandial program which he had prepared for the evening and on which the first number was a talk by H. J. Cunningham who gave a concise and interesting history of the beginning of the association in this city. Mr. Cunningham is one of three gentlemen who have served on the board of directors since the organization of the association and he spoke, entertainingly of its early struggles and experiences. Mr. Cunningham will serve the association during the coming year as chairman of the physical department.

**History of the Work**  
Dr. E. E. Loomis was called upon to give a resume of his administration as president of the association and chairman of the building committee. The history revealed the fact that much hard work had been invested, at times under great discouragement but with a purpose that never faltered. Much credit was given to Secretary Kline for patient and intelligent service. While other speakers spoke of the hardships through which the retiring president had led the association and of the heavy burden which he had carried, Dr. Loomis spoke of the pleasure he had found in the work in spite of its many problems. Dr. Loomis continues to serve the association as chairman of the building committee.

**The Temperance Work**  
Secretary J. C. Kline made some suggestions for future work after which John H. Jones, who has been appointed chairman of the temperance work for the coming year, spoke feelingly of the great help which the association had been to the Francis Murphy League and urged the importance of a more lively interest in active temperance work.

J. A. Craig gave his impressions of the spiritual work being done by the association, speaking in highest terms of what has been accomplished and urging the necessity of a large practical idea to be worked out for the spiritual department. He was made chairman of a committee to formulate such a plan.

A. E. Matheson, chairman of the social committee, emphasized the importance of carrying on some line of social work especially for men who are without social advantages.

**Tribute to Dr. Loomis**  
Judge B. R. Dunwiddie, the first president of the association, gave a review of the work and made valuable suggestions for the future. He highly commended Dr. Loomis and spoke of the high regard in which he is held by those who have been associated with him in the work. No one else knew what hard things had been gone through or how faithfully he had stayed with the work.

**Suggestions for the Future**  
Senator J. M. Whitehead and H. F. Bliss spoke on some of the thoughts which were brought out at the annual meeting, principally the enlargement of the board of directors and the election of officers by the board instead of the association. The discussions of the evening were earnest and intelligent. The association is no longer an experiment and the men who are actively engaged in its welfare are constantly on the alert for methods to increase its usefulness. The association is doing good work and is entitled to every encouragement.

**Those Who Were Present**  
The guests of last evening were Dr. E. E. Loomis, Senator J. M. Whitehead, Rev. Robert C. Denison, Rev. J. T. Henderson, Rev. J. H. Tippet, Rev. Richard M. Vaughan, Rev. Jas. Churm, J. A. Craig, H. F. Bliss, Thomas Erickson, John H. Jones, F. Palmer, A. E. Matheson, Judge B. F. Dunwiddie, H. J. Cunningham, Dr. F. T. Richards, H. M. Hanson, J. L. Bostwick and Secretary J. C. Kline.

**Buell Hampton.**  
The story is full of surprises and forceful climaxes. No reader suspects the identity of the cattle thief who causes so much trouble, and the relation existing between Horton, the cattle king, and the other prominent characters, when disclosed, is as

much a surprise to the reader as it is to them.

Fetching humor is harmoniously blended with gentle pathos throughout the story. Much of it is inspired by Judge Lynn, a rollicking country lawyer, whose oddities and quaint sayings are highly amusing. He appears as a grotesque contestant in a remarkable foot race that is an absolute novelty.

Ranch and range life on the western plains are faithfully depicted. The fresh and invigorating air of the prairies is instilled into every chapter. There are beautiful graphic descriptions of the natural phenomena of the Great Southwest, a field in which the author is fortunate; for it is probably less known than any other region of the United States.

A glimpse of the political life of the region is obtained in the doings of the "Barly Hullers," an organization of farmers. The intense patriotic spirit of the story will inspire faith in sturdy, American character. "Buell Hampton" is so animated with dramatic incident, so chaste and healthy in tone, so rich in heart qualities, so charming in description, so delightfully true to life, that it may rightly be classed with the novels of extraordinary merit. It will be welcomed by the reader in search of fresh plots, new fields, and original conceptions of character. The publishers have done their part in good taste and the volume is far more substantial and attractive than the majority of novels.—By Willis Gu Emerson. Forbes & Co., Boston.

**EASY WORK**

"Love lightens labor," the saying runs, and in a sense it is true. But even love cannot lighten labor or make it easier for the woman who is in constant suffering from inflammation, bearing-down pains or other womanly diseases.

The one thing that can make work easy for women is sound health, and Dr. Pierce's Favorite Prescription is the thing that will give sound health to sick women. It cures womanly diseases which cause weakness, and cures other ills which are the result of womanly diseases.

"I suffered from female weakness for five months," writes Miss Belle Heirick, of Nye, Putnam Co., W. Va. "I was treated by a good physician but he never seemed to do me any good. I wrote to Dr. R. V. Pierce for advice, which I received, telling me to take his 'Favorite Prescription' and 'Golden Medical Discovery'."

"When I had used the medicines a month, my health was much improved. It has continued to improve until now I can work at almost all kinds of housework. I had scarcely any appetite, but it is all right now. I have gained several pounds in weight. Dr. Pierce's medicines have done wonderfully well here. I would advise all who suffer from chronic diseases to write to Dr. Pierce."

"Favorite Prescription" makes weak women strong, sick women well. Accept no substitute for the medicine which works wonders for weak women.

Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for the paper-covered book, or 31 stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

## PUMPMEN JOIN MINERS' STRIKE

From 60 to 80 Per Cent of the Workers Refuse to Continue Work.

### BOTH SIDES ARE SATISFIED

President Mitchell Declares More Men Will Come Out, While the Operators Say Those on Their Way to the Mines Were Intimidated.

Wilkesbarre, Pa., June 3.—In response to the orders of the United Mine Workers' union, from 60 to 80 per cent of the men engaged in pumping out the mines to save the property from ruin by water quit work. There has been no violence to speak of throughout the anthracite region, although here and there sporadic outbreaks of ugliness have occurred.

The operators say that about 80 per cent of the engineers and 50 per cent of the pumpmen remained at work. Of the firemen, they admit that a large percentage struck in obedience to the union's orders. Mr. Mitchell says that only a portion of the 20 per cent of all groups of workmen who struck by the companies were members of the United Mine Workers' union. He said furthermore the most of the 20 per cent still at work would not remain long.

Mine operators say that in many instances men were held up on their way to work and practically intimidated. They say that these men explained this fact to them, and that all who want to go to work will be protected by bodyguards of coal and iron police. It is next to impossible to get reliable figures showing the actual number of men who remained at work and the actual number who obeyed the union's order.

Although a majority of the men quit work, the companies, generally speaking, succeeded in keeping their pumps in operation. The operators feel that at present they have the advantage, but they are not so sanguine of the future. The exact number of men who quit cannot be obtained. Each side refuses to make public their figures, but gave out information that roughly estimates the number of men affected. These estimates are far apart.

Mitchell Claims 80 Per Cent. National President Mitchell of the Miners' union gave out a statement in which he says:

"Reports received from every important mining community indicate that where the eight-hour day has not been conceded fully 80 per cent of the firemen, pumpmen and engineers have ceased work. The number will be materially increased. In some sections mine foremen have positively declined to perform the work of engineers, firemen and pumpmen. In some places foremen have manned the pumps and clerks have also been required to perform this labor.

"A perfect army of irresponsible men has been employed by the coal companies to act as coal and iron policemen. The services of these men are unnecessary and their presence unwarranted. There have been no violations by the mine workers, and I am sanguine there will be no overt acts on the part of the strikers."

On the other hand, a mining official of one of the largest coal companies made this statement:

"According to our report about 65 per cent of all the Lehigh Valley's men, who are scattered from near Scranton down to Shamokin, went out. The Delaware, Lackawanna and Western, the Delaware and Hudson, and the Erie companies, whose operations are mostly located north of here, fared a little better. The Susquehanna Coal company's collieries, which are controlled by the Pennsylvania railroad, and which are located at Nanticoke, south of here, were crippled less than any big company in the region.

"The Reading company, with forty collieries in the lower region, was the worst sufferer, more than 70 per cent of its men refusing to go to work. The individual companies all lost more than 50 per cent of their men."

### MAY END THE STRIKE.

Mr. Vanderbilt Makes Appointment to Meet Senator Hanna.

Wilkesbarre, Pa., June 3.—Information from private sources of a trustworthy character indicates that there is an excellent chance that the anthracite coal strike may be brought to a speedy end.

Through George W. Perkins, partner in the banking house of J. P. Morgan & Co., a conference between Senator Hanna and W. K. Vanderbilt was arranged, and it is understood that it will take place at Mr. Hanna's house in Washington within a few days. It was the purpose of Mr. Perkins' recent visit to Mr. Hanna at Cleveland.

Whether the purpose of Mr. Vanderbilt in seeking a conference with the chairman of the Civic Federation is to propose direct terms of settlement or arbitration is not known. But the fact that such an interview has been arranged is regarded as evidence that the great powers behind the coal railroads are preparing to make peace with the strikers in one way or another.
